Description

Lviv. Former Governor's Shafts

The alleys located between Pidvalna and Vynnychenka streets, form a green tract on on the ramparts what used to be the eastern fortifications of Lviv. It was created as an initiative of Governor's adviser Wilhelm Ratzenheim in 1821. Hence the name - Governor's Shafts.

The only remains of the former Lviv fortifications have been preserved in the form of the well-known *Gunpowder Tower*. Built in the middle of the XVI century, it was an important fortification point with cannon loopholes. On the ramparts of the walls, in addition to the Powder Towers, you can find the first school in Lviv (now school N8), as well as a monument to Vyacheslav Chornovil.
